FOREWORD

In the year 1908, the Trustees of the Indian Museum published Vol. III of the *Catalogue of Coins in the Indian Museum* by Mr. H. Nelson Wright, dealing with the coins of the Mughal Emperors of India. Since then, a large number of Mughal coins representing new types and bearing new mint names have been added to the Museum, and it has become necessary to bring out a supplement to Mr. Nelson Wright's Catalogue. This work has naturally devolved on the Archæological Survey of India, which, since 1911, has been in charge of the collection. The cataloguing of the coins was entrusted to Maulavi Shamsuddin Ahmad, M.A., Senior Assistant Curator of the Archæological Section, Indian Museum, who has made a special study of Muslim numismatics. Some of the typical and interesting specimens are illustrated in the accompanying three Plates.

J. F. BLAKISTON,

*Director General of
Archæology in India.*

SIMLA.

The 1st September, 1936.

PREFACE

The scheme of arrangement adopted in this Supplementary Catalogue is similar to that followed by Mr. H. Nelson Wright. The new types of coins have been described in detail, whereas those that are already well known from the existing Catalogues have been dealt with briefly, attention being drawn to the differences in mints, dates and other important points. In describing the coins, I have always endeavoured to select only such specimens as have not been described in Mr. Nelson Wright's Catalogues, excluding the duplicates as a rule, except in cases where they throw more light on the readings of inferior or debased specimens.

I should record here my deep sense of gratitude to Rao Bahadur K. N. Dikshit, now Deputy Director General of Archæology in India, who has always encouraged me in my researches and at whose instance I undertook the compilation of this Catalogue. I cannot also adequately express my obligations to Mr. N. G. Majumdar, Superintendent of the Archæological Section, Indian Museum, who offered me every facility to carry on this work and without whose sympathy and assistance it would not have been possible for me to bring out this volume.

S. AHMAD.
